

NIEBUR OIL JOINS YOCUM OIL COMPANY

On June 10, 2004, Niebur Oil Company partnered with Yocum Oil Company. Niebur Oil was a family owned business, much like Yocum Oil, serving customers with fuel and lubricants. Niebur Oil was prevalent in the southern suburbs of the Twin Cities and centered out of Meisville, Minnesota. The bulk of Niebur's business was delivering fuel to commercial, farm, contractor, and home heating oil customers.

We are happy to announce the personnel assets that came to Yocum Oil as a result of the acquisition. Paul Niebur, owner of Niebur Oil, joins Yocum Oil as our Special Projects Coordinator. Paul's team of dedicated drivers have also come onboard to continue to provide excellent customer service to these customers. Yocum Oil Company now operates an additional bulk plant location in Meisville, Minnesota.
